Restored church interior now online

THE restored interior of St James' Church in Finchampstead can now be viewed on Google Street View. The restoration of the Grade I Listed 12th Century

parish church was completed two years ago after a successful appeal to raise £550,000. The work can now be viewed online thanks to the expertise of Andrew

Emptage, of Wokingham's The Art Company.

Mr Emptage will give a talk at the church next spring about his work to put St James' on the map.
